

HR at Your Fingertips

Human Resources is at the heart of the organization. HR Managers need to be able to quickly access and update information while staying on top of recruiting, on-boarding, and off-boarding needs. MyPayrollHR powered by Cloud's HR modules are designed to help supervisors manage employees and growth.

Key Features

Dashboard

Access an interactive Dashboard with quick-click charts of key indicators and HR statistics that you can customize. Utilize drill-down access to supporting detail data.

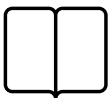

HR Benefits & Answers

The easy to access HR Library is written, maintained, and updated by attorneys so that every piece on content is current and properly sourced.

Stay Compliant

Stay informed with calendars, forms, deadlines, and required posters and notices.

Essential HR Functions

Our HR Library is packed with guides, forms, videos, tools, and checklists that guide you through recruitment and hiring, performance reviews, discipline and termination, and more.

Employee Master File

Maintain your important employee information in one central and secure repository. Changes made here can apply across the system into payroll and time and labor. Add additional information like training history and property assignments.

Employee History

Track information and change dates for positions, pay, employment status and employment type.

Employee Review & Events

Stay on top of reviews with reminders and notes. Upload documentation to support the review session. Users can track employee review history including the date, rating, and reviewer. They can also create events outside of reviews to track and complete.

HR tools that meet your needs.
